**V(H). Planned Program (External Factors)**

**External factors which affected outcomes**

Natural Disasters (drought, weather extremes, etc.)

Economy

Appropriations changes

Public Policy changes

Government Regulations

Competing Programmatic Challenges

**Brief Explanation**

Over the past five years, we have endured catastrophic fires at one of our remote field labs, and recently we had a flood in Reno that flooded our Main Station Field Lab in Reno, both of which directly impacted our research productivity, financial status, and available resources. A decrease in appropriations could directly impact our ability to address all of our research priorities as would public policy changes.
