V(H). Planned Program (External Factors)

External factors which affected outcomes

Economy

Competing Public priorities

Brief Explanation

Economic hardships faced by this nation and especially in the area of West Virginia which is developing a Teen Court, have hampered the timely development and implementation of the project. The community is in dire need of a multiplicity of services but is faced with scarce resources and unmet demands. The emphasis on other priorities for federal, state, and local governmental funding have influenced the more expedient implementation of a full range of services associated with a community-based Teen Court.
