

V(A). Planned Program (Summary)

Program # 17

1. Name of the Planned Program

Consumer Science and Personal Financial Management

- Reporting on this Program

Reason for not reporting

As a result of refinements to the ACES program planning process, as noted in the 2013 Plan of Work, this program has been redefined consistent with the new FY2013 Planned Program list. The content of this program is now included in one of the FY2013 Planned Programs. Accomplishments for this program will be reported under the appropriate FY2013 Planned Program.

V(D). Planned Program (Activity)

1. Brief description of the Activity

The primary activities in this area are 4 statewide Extension Team Projects. These are:

ETP15A - Employment and Entrepreneurship- This project will help individuals move toward self-sufficiency and improve quality of life through employment and entrepreneurship activities. Youth and adults with limited resources and/or minimal work experience will be targeted. Entrepreneurship activities will focus on home-based and micro business start-up. Career development activities will promote career awareness and job preparation skills.

ETP15C - Family Financial Security and Consumer - This project will increase the level of financial knowledge and financial management skills of youth, adults and senior citizens statewide. Topics that will be taught include budgeting, heir property, retirement, estate planning, wise decision making related to credit, debt, savings, investments, retirement, and protection from fraud and identity theft.

ETP15D - Urban Family Financial Security and Consumer Education - U&NNTP

Each project includes a variety of educational activities. Detailed descriptions of the activities of these projects are available on the ACES intranet.

2. Brief description of the target audience

V(F). State Defined Outputs

Output Target

Output #1

Output Measure

- This program area will include numerous output activities and methods as part of the Extension Team Projects (ETPs) which are described/explained in the prior "outcome activities and methods sections." The success of many of these outcomes will be formally evaluated/measured by using individual activity evaluation forms designed specifically for each activity, the success of other activities and methods will be measured by the level of participation in the activity. In the target boxes below for each year, we are indicating the number of individual activities within the ETPs for this program area that will be formally evaluated using an evaluation instrument designed specifically for that activity.

V(G). State Defined Outcomes

V. State Defined Outcomes Table of Content

O. No.	OUTCOME NAME
1	Total number of people completing financial management education programs who actually adopted one or more recommended practices to decrease consumer credit debt, or increase investing and savings, and plan for retirement within six months after completing one or more of these programs.
2	Each ACES employee is required to provide a success story on the program activity which they felt best demonstrates the impacts of their work. These success stories contain the following elements: Why: Explain the reason the program was done, or the situation or problem that the program addressed What: Specifically what was done and how it was done. When: If this was a one-time event, the date it occurred. If it is was a series of events, or an on-going program, when it began. Where: Specific location-- the county or counties involved. Who and how many: The "who" includes both who did the program and who were the clients of the program, as well as how many people were served. So what: This is the part that gives the real meaning to "success". The basic question to be answered in this part is "what difference did this program make". The difference may be measured in terms of dollars, or in changes in habits, lifestyles or attitudes. Whenever possible use numbers to show the effect of the program. If it is not possible to use numbers, provide a qualitative measurement like client comments or another type of testimonial about the program. Since this program area is very broad in scope and contains multiple Extension Team Projects which have different outcomes measures, the impacts for this program area are best measured in the number and quality of the success stories generated by the individuals who work on these projects. Therefore, one very significant outcome measure is the number of success stories generated.
