V(H). Planned Program (External Factors)

External factors which affected outcomes

- Natural Disasters (drought, weather extremes, etc.)
- Economy
- Appropriations changes
- Public Policy changes
- Government Regulations
- Competing Public priorities
- Competing Programmatic Challenges
- Populations changes (immigration, new cultural groupings, etc.)

Brief Explanation

Extreme weather conditions in Southeast Missouri increased the joblessness situation in an already hard hit area. Overall, the economic situation has made it more difficult on families in underserved areas. State budget cuts have had a huge impact in some areas, resulting in more stress and tension in families and communities.

V(I). Planned Program (Evaluation Studies)

Evaluation Results

A survey of statewide regions resulted in a response from over 3,000 stakeholders. These results were entered into a database for evaluation. That evaluation is currently in progress. We hope to compare the various regions on what programs were effective, what were some regions doing well, that did not work in other regions, and the overall status of programs throughout the state.
